 Location:
 Tracking Code: **214202501C**

Explanation: **The Flatbush African Burial Ground will be constructed as a memorial through the Department of Parks and Recreation. Funding has been identified for what seems to be preliminary work. 2 Inspect water main on specific street segment and repair or replace as needed

Reference name: **Inspect water main on specific street segment and repair or replace as needed**
 Full agency name: **Department of Environmental Protection**
 BR Type: **C**
 Need: **Water supply system**
 Location:
 Tracking Code: **214202502C**

Explanation: **There are several locations in the District that flood chronically in rainstorms. These locations have all been brought to DEP's attention. DCP has provided a limited drop down list from which to choose a budget priority. We ask the DEP respond to the requests pending and advise as to what the respective issues are so that we can identify what budget line these requests fall into. The bottom line is that DEP must provide solutions to these locations because property, businesses and public areas should not have to withstand chronic flooding. What capital projects would help in these various locations: bioswales, catch basins, permeable surface additions, holding tanks?**

3 Provide more housing for extremely low and low income households

Reference name:
 Full agency name: **Housing Preservation and Development**
 BR Type: **C**
 Need: **Affordable housing programs**
 Location:
 Tracking Code: **214202503C**

Explanation: **Affordable housing is dropping as a share of housing in CD 14. Low and extremely low income housing is always the smallest percentage of new developments, and they tend to be smaller units such as studios and 1 bedrooms, making low income housing for families nearly nonexistent.**

4 Other capital budget request for DPR

Reference name:
 Full agency name: **Department of Parks and Recreation**
 BR Type: **C**
 Need: **Park, buildings, and access improvements**
 Location:
 Tracking Code: **214202504C**

Explanation: **The Lakeshore project is a multi-million dollar green infrastructure project that would create marshland, utilize storm water for the benefit of the park and mitigate damaging flood conditions that affect homes, businesses, and other city assets such as the Parade Ground, the SRG Precinct, bus stops and more. This project must be fully supported and expedited.**

5 Renovate or upgrade existing precinct houses

Reference name: **Renovate or upgrade existing precinct houses**

Full agency name: **New York City Police Department**

BR Type: **C**

Need: **NYPD facilities and equipment**

Location:

Tracking Code: **214202505C**

Explanation: **The history of efforts to relocate this aging facility goes back three decades. In 2006, DCAS began property acquisition at 1326 Ocean Avenue and NYPD set aside \$30 million for the property, and OMB stated its commitment to identify additional funding. Construction was set to begin in 2013. It did not and the site was lost to a market rate housing development. A \$1 million scoping study to assess the feasibility of building a new precinct house on site acknowledges the locational challenges that the current site presents. OMB approved a site search to no avail. Relocating the precinct house remains a priority. In the meantime, the current precinct house floods and leaks and does not have adequate lockers, storage, or parking, nor it is handicap accessible.**

6 Reconstruct or upgrade a park or amenity (i.e. playground, outdoor athletic field)

Reference name:

Full agency name: **Department of Parks and Recreation**

BR Type: **C**

Need: **Park, buildings, and access improvements**

Location:

Tracking Code: **214202506C**

Explanation: **The Hot Spot Tot Lot on Campus Road is the only DPR asset that has not had a capital upgrade in over a decade. DPR should have greater control of capital purse strings to maintain parks and playgrounds in communities according to conditions and time between upgrades rather than relying on elected officials for capital funds. Usually those making the allocations will be term limited before the ribbon cutting. Please don't reply, "ask your elected officials." At least provide the scope estimate and support for this request.**

7 Roadway maintenance (resurfacing, trench restoration, etc.)

Full agency name: **Department of Transportation**

BR Type: **C**

Need: **Transportation infrastructure**

Location:

Tracking Code: **214202507C**

Explanation: **Five years ago, DOT identified \$60 million for trench repair but none of it was allocated to CD14, despite worsening conditions. There must be an increase in the budget for road and street infrastructure repair. Six locations have been submitted to DOT. 564 East 29th Street; 1781 Ocean Avenue/SE corner of Avenue M; 715 Ocean Parkway Service Road; Waldorf Court between East 17 and Dead End; Hillel Place and Kenilworth Place intersection; 464-476 East 16th Street. Full agency name: **New York City Transit Authority**

BR Type: **C**

Need: **Transit Infrastructure**

Location:

Church Ave and E 18 St

Tracking Code: **214202508C**

Explanation: **Church Avenue is the most heavily utilized station in the district and is in disrepair. A public private partnership is in place to install an elevator to make the station ADA compliant. Reference name:
 Full agency name: **Department of Transportation**
 BR Type: **C**

 Full agency name: **New York City Police Department**
 BR Type: **C**
 Need: **NYPD facilities and equipment**
 Location:
 Tracking Code: **214202510C**

Explanation: **While NYPD continues the search for an appropriate location for a new precinct house, the current precinct house floods and leaks and does not have adequate lockers, storage, parking, nor it is handicap accessible. Work orders should be addressed quickly. The vacant lot on the block should be explored as a potential parking facility for the 70th Precinct.**

11 Other transportation infrastructure requests

Reference name:
 Full agency name: **Department of Transportation**
 BR Type: **C**
 Need: **Transportation infrastructure**
 Location:
 Tracking Code: **214202511C**

Explanation: **Ensure that sidewalks, curbs, street and bus pads are maintained at all bus stops. The bus stop at Church Avenue and East 18th street, which is a heavily utilized connection to the Brighton Line at the Church Avenue station is hazardous in both directions. The sidewalks require repair, the curbs are dilapidated and the streets have waving and pot holes. DOT installed an express lane on this stop and should have ensured bus pad, sidewalk and street maintenance along each stop during that project.**

When last measured at full capacity, PS 139 was at 121% of utilization; PS 127 was 125%; PS 249 was at 128%, PS 193 at 111%; PS 315 was at 118% and the PS 152 Annex was at 146%. Since annexes are built to address overcrowding, an overcrowded annex boldly underscores the need for additional elementary school seats in the northern end of the District. The elementary schools listed above are all north of Avenue L.**

14 Add NYPD parking facilities

Reference name: **Add NYPD parking facilities**
 Full agency name: **New York City Police Department**
 BR Type: **C**
 Need: **NYPD facilities and equipment**
 Location:
 Tracking Code: **214202514C**

Explanation: **Increasingly we are told that large tow vehicles are not available, or that there is no space in the tow lot. This has created a backlog and long waits for the removal of illegally parked vehicles and an ongoing issue with overnight commercial parking of tractor trailers on both commercial or residential streets. An increased investment in both tow equipment and tow lots is needed.**
