FLATBUSH–MIDWOOD COMMUNITY DISTRICT
810 East 16th Street
Brooklyn, New York 11230

ANTONIO REYNOSO
Borough President

KARL-HENRY CESAR
Chairperson

SHAWN CAMPBELL
District Manager

**Resolution for Procedures Related to Street Co-naming Applications
in Community District 14**

Whereas, Brooklyn Community Board 14 recognizes the New York City Department of Transportation “Ceremonial Street Policy” (updated September 1, 2007) with a Board process change to include that applications will be heard by the Board only when a City Council Member representing Community District 14 recommends an application,

Whereas, Brooklyn Community Board 14 adopts the “Standards for New York City Council Consideration of Street Co-naming” as baseline guidance for consideration of Honorees,

Whereas, in addition to the City Council’s “Standards”, Brooklyn Community Board 14 has adopted the following additional criteria to be met by the applicant before a public hearing will be held regarding a Street Co-naming request,

1. There shall be a formal community board application where the prospective honoree’s applicant will review a check-list and provide requested documentation about the honoree,
2. Prospective honorees have demonstrated extraordinary and consistent commitment directly to Community District 14 or exhibited significant historical or cultural impact,
3. No time limit shall be required for the prospective honoree's consistent community service or impact to be considered by the Board,
4. Fifty-one percent (51%) of the households within a one (1) block radius of the proposed street shall have signed a community support petition of the Street-Co-naming,
5. All Street Co-naming applications shall be heard equally,

Be it therefore resolved that Brooklyn Community Board 14 will follow these additional adopted procedures for Street Co-naming, noting however that failure to provide any of the additional criteria when endeavored in good faith, will not preclude a public hearing being called to order to hear the application.
